To eradicate Yellow Flag Iris between the Tainui and Rangiriri Bridges

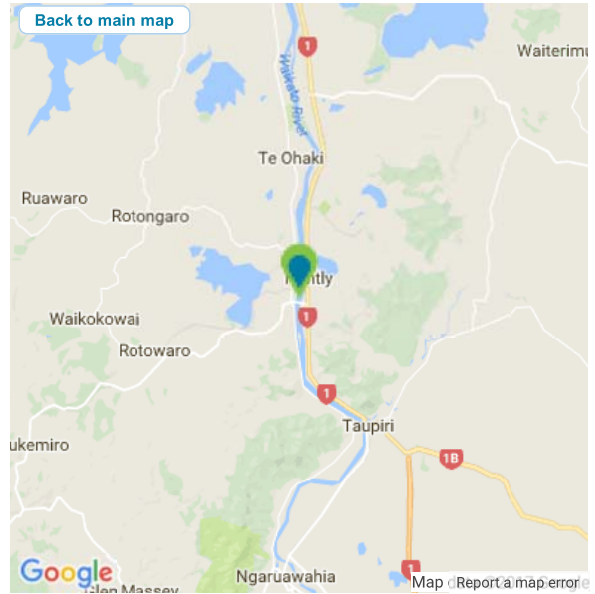

This is a weed spraying project for the eradication of Yellow Flag Iris (*Iris pseudacorus*) along both banks of the Waikato River from Tainui Bridge, Huntly to the Rangiriri Bridge, Rangiriri.

The project will commence in March/April 2013 and is a collaborative approach between Waahi Whaanui Trust (WWT), Waikato Regional Council (WRC) and Department of Conservation (DOC).

Key activities include the operation of a hand spray unit along riparian margins, use of a suitable vehicle, selection of eco-friendly herbicides and the implementation of a follow-up spray programme to make certain a high extermination rate is achieved.

This project is funded by the Waikato River Authority (WRA 12-008)
