Subject: Re: Healthy Rivers Panel Minutes and memorandum- Miraka - Addenbrooke evidence

Dear Steve,

Attention: Plan Change 1 Commissioners.

Re: Miraka Healthy Rivers Panel Minutes and memorandum- Miraka - Addenbrooke evidence.

Farmers for Positive Change (F4PC) believe no submitter should be excluded from the hearing process when they have in good faith and endeavoured to participate in the proceedings in a fair, honest and transparent manner.

Whilst there may be some legalities and concerns about scope and timing to present evidence, F4PC consider that to ensure the Plan Change 1 process can take on board all relevant issues for discussion and deliberation to ensure the best possible outcome, then the process would be better off considering all political and community interests.

F4PC would welcome the continuance of the Miraka evidence in full so that all sides of the discussion can be heard.

Thank you,

Kind regards

Rick Burke - Chairman of Farmers 4 Positive Change.
