

Approvals

Where a boundary is shown along a river or road it follows the middle line of the physical river or legal road unless otherwise shown.

All seaward boundaries follow M.H.W.S. but cross the mouths of all rivers, streams, inlets and estuaries except where shown otherwise.

This plan renders the boundary capable of identification under Clause 14 of the Resource Management (National Environmental Standards Relating to Certain Air Pollutants, Dioxins, and Other Toxics) Regulations 2004.
